

Novelty pencil cases have grown enormously in popularity over recent years as children recognise that pencil cases are not merely functional items, they allow you to bring a little personality to the classroom.

Blueprint's pencil case offering incorporates best selling formats including the Coke pencil case collection with the introduction of a new Dr Pepper design. A wider range of drinks carton pencil cases sees the introduction of orange and apple juice, and building on the success of the chewing gum pencil case we have added bubble gum, sweets and biscuit inspired pencil cases into the collection.

Orange Juice
