THE TRAITORS

The Traitors is a nail-biting and psychological reality television show, in which treachery and deceit are the name of the game. Blueprint's new collection of Traitors items has the DNA of the show right at it's core with the iconic Chalk Board, a Letter Writing Set for leaving treacherous notes and a Sleepwell Set to keep track on the mysterious goings on and an eye mask to help get some much wanted rest. Not to mention the poison chalice Beaker; there's something for everyone, Traitors and Faithful alike.
