

In 1968, Hot Wheel die-casts were designed to revolutionise toy vehicles by looking cooler and performing better than the competition. More than 5 decades later, Hot Wheels is now the #1 selling toy in the world. When kids play with Hot Wheels, every attempt teaches them to take on challenges, develop problem-solving skills, and cultivate a growth mindset.

Our Hot Wheels range focuses on the bright colour palette, sharp graphics and bold typography that fans of Hot Wheels know and love. Hot Wheels ignites, and nurtures, the challenger spirit!
